Animate Street
In March 2025, following feedback from local residents, the street was given the more familiar nickname "Animate Street." The north side is home to stores selling anime character merchandise and entertainment facilities, while the south side features restaurants such as ramen and izakaya restaurants, making it a charming street that connects these two distinct areas.
Otome Road
Around the year 2000, when the Animate Ikebukuro Main Store was located on the west side of the street, it became known as "Otome Road" because of the large number of female customers coming and going there. Even today, the area is home to a variety of stores, including secondhand stores selling manga and character merchandise, shops specializing in cosplay-related items, and themed cafes.
